

# CALL FOR PAPERS

**ICSRTEG 2021**  
**May 27-28, 2021**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSRTEG 2021 : International Conference on Sustainable Road Transport and Economic Goals is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Road Transport and Economic Goals. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sustainable road transport  
Energy for sustainable road transportation  
Trends and policy options  
Economic goals  
Ecological goals  
Social goals  
Sustainability assessment of road transport technologies  
Assessment criteria for road transport technologies  
Lifecycle impacts  
Air pollutants

Infrastructure for sustainable road transport  
Fuel technology combinations  
Intelligent transport systems  
Intelligent transportation technologies  
Alternative fuel vehicles  
Sustainable urban transport in medium-sized developing cities  
Road-based public transport  
Technological solutions  
Vehicle access restrictions
