

# CALL FOR PAPERS

**ICTPC 2021**  
**May 27-28, 2021**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTPC 2021 : International Conference on Theoretical Physics and Cryptography is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Theoretical Physics and Cryptography. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Theoretical physics  
Mathematical physics  
Mainstream theories  
Proposed theories  
Fringe theories  
Different approaches to theories  
Mainstream theories: Black hole thermodynamics  
Classical mechanics and Condensed matter physics  
conservation of energy  
Dark Energy and matter

Electromagnetism and Field theory  
General relativity  
Physical cosmology  
Quantum chromodynamics and Quantum computers  
Quantum field theory, gravity, electrodynamics and electrochemistry  
Solid mechanics and Special relativity  
Standard Model  
Statistical mechanics  
Thermodynamics
