

CALL FOR PAPERS

ICGSSP 2021
Jun 10-11, 2021
Copenhagen, Denmark

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGSSP 2021 : International Conference on Green Structure Strategy and Planning is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Green Structure Strategy and Planning. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Green construction
- Green structure
- Green building
- Green structure design
- Green structure and planning
- Planning, design and implementation
- Green infrastructure
- Green structure strategy
- Essential elements
- Green architecture
- Benefits of green roofs and green walls
- Reducing environmental impact
- Goals of green building

- Life cycle assessment
- Siting and structure design efficiency
- Energy efficiency
- Water efficiency
- Materials efficiency
- Indoor environmental quality enhancement
- Operations and maintenance optimization
- Waste reduction
- Reduce impact onto electricity network
- Cost and payoff
- Regulation and operation
- International frameworks and assessment tools
