

CALL FOR PAPERS

ICEBB 2021
Jun 29-30, 2021
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEBB 2021 : International Conference on Emerging Biosensors and Biotechnology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Emerging Biosensors and Biotechnology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Analytical and Bio analytical techniques
Animal Biotechnology
Bioinformatics
Biotechnology in Healthcare
Clinical Research
Diagnostic devices
Emerging biosensors and lab-on-a-chip platforms for point-of-care diagnostics/personalized medicine
Health and Medicine
Implantable device
Industrial Biotechnology

Marine biology and Aqua culture
Microbiology and Biochemistry
Nano technology and Nanomedicine
Nanoparticle characterization and application to diagnostic devices
Nanotechnology
Plant and Agrobiotech
Plant and Environmental Biotechnology
Radiation safety and novel radiation-based therapeutic agents
Systems Biology and Technology
Therapeutic devices
