

# CALL FOR PAPERS

**ICAANC 2021**  
**Jun 28-29, 2021**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAANC 2021 : International Conference on Advanced Applications of Nanomaterials Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Applications of Nanomaterials Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanomaterials chemistry  
Nanochemistry of materials  
Nanoscience and nanotechnology  
Nanochemistry and materials  
Organic materials in nanochemistry  
Molecular machines  
Nanomaterials for optoelectronics  
Non-aqueous Sol-gel processed for the synthesis of oxidic nanoparticles  
Recent results on nanocrystals  
Peptide nanotubes and related aspects  
Photo/electrochemistry  
Recent results on nanowires and nanotubes  
Growth of nanoparticles

Nanoscale electronic phase separation in oxides  
Nanoelectrodes: batteries  
Molecular electronics  
Dendrimers  
Recent developments in the synthesis, properties and assemblies of nanocrystals  
Nanotubes and nanowires  
Growth of nanocrystals in solution  
Nanostructured materials  
Nanostructured hybrid materials for supercapacitors  
Supramolecular approaches to molecular machines  
Nanomaterials, nanochemistry and smart materials  
Functional nanomaterials of organized structure  
Advanced ceramics and composites
