

CALL FOR PAPERS

ICAELI 2021
Jun 28-29, 2021
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAELI 2021 : International Conference on Agricultural Engineering and Agricultural Infrastructure is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agricultural Engineering and Agricultural Infrastructure. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural engineering
Agricultural science
Agricultural infrastructure
Input based infrastructure
Resource based infrastructure
Physical infrastructure
Institutional infrastructure
Protecting the environment
Land and water resources
Construction of agricultural roads
Water reservoirs, warehouses and other structures
Pollution control at large farms
Developing new forms of biofuels from non-food resources

Algae and agricultural waste
Plant protection and fertilization
Plants, seeds and propagation materials
Design of agricultural machinery, equipment, and agricultural structures
Design, construction and improvement of farming equipment and machinery
Integrating technology with farming
Agricultural resource management
Water management
Water conservation and storage for crop irrigation and livestock production
Surveying and land profiling
Climatology and atmospheric science
Soil management and conservation
Erosion and erosion control
