

# CALL FOR PAPERS

**ICAELI 2021**  
**Jun 28-29, 2021**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAELI 2021 : International Conference on Agricultural Engineering and Agricultural Infrastructure is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agricultural Engineering and Agricultural Infrastructure. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural engineering  
Agricultural science  
Agricultural infrastructure  
Input based infrastructure  
Resource based infrastructure  
Physical infrastructure  
Institutional infrastructure  
Protecting the environment  
Land and water resources  
Construction of agricultural roads  
Water reservoirs, warehouses and other structures  
Pollution control at large farms  
Developing new forms of biofuels from non-food resources

Algae and agricultural waste  
Plant protection and fertilization  
Plants, seeds and propagation materials  
Design of agricultural machinery, equipment, and agricultural structures  
Design, construction and improvement of farming equipment and machinery  
Integrating technology with farming  
Agricultural resource management  
Water management  
Water conservation and storage for crop irrigation and livestock production  
Surveying and land profiling  
Climatology and atmospheric science  
Soil management and conservation  
Erosion and erosion control
