

CALL FOR PAPERS

ICAER 2021
Jun 28-29, 2021
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAER 2021 : International Conference on Advances in Environmental Robotics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Environmental Robotics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental robotics
Extreme environment robotics
Navigation technologies in environmental robotics
Characterization of environmental structure and phenomena
Intelligent technologies for environmental monitoring
Robot-environment interaction
Applications of environmental robotics in complex and dangerous systems
Sampling methods

Sensor phenomena and characterization
Robot sensing systems
Extraterrestrial phenomena
Spatiotemporal phenomena
Testing, sensor systems and applications
Motion measurement
Time measurement
