

CALL FOR PAPERS

ICECWTP 2021
Jun 28-29, 2021
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICECWTP 2021 : International Conference on Emerging Contaminants in Wildlife Toxicology and Terrestrial Pollution is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Emerging Contaminants in Wildlife Toxicology and Terrestrial Pollution. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Emerging contaminants in wildlife toxicology
Wildlife ecotoxicology
Wildlife health and biodiversity
Biodiversity and sustainability
Sensitivity of certain wildlife species
Poisons/pollutants and their action on the environment

Chemical and biological factors
Aquatic pollution
Terrestrial pollution
Air pollution
International regulation
