

CALL FOR PAPERS

ICERCCLUC 2021
Jun 28-29, 2021
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICERCCLUC 2021 : International Conference on Environmental Risk, Climate Change and Land Use Change is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Risk, Climate Change and Land Use Change. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Case studies on climate change
Climate change and sustainability,
resilience, and vulnerability
Environmental risk
Trade-offs between development and
environmental integrity

Land use change and climate change,
societal change, or policy change
as a driver
Climate change and poverty,
marginality, and gender
Models and analytical tools for
modeling climate change
Environmental management and
sustainability
