

CALL FOR PAPERS

ICAISC 2021
Jun 14-15, 2021
Montreal, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAISC 2021 : International Conference on Artificially Intelligent Smart Cities is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Artificially Intelligent Smart Cities. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Artificially intelligent smart societies
Urban computing
Ubiquitous sensing
Smart city planning
Smart grid techniques
Big data in smart city
Smart traffic management
Smart infrastructure health monitoring
Environmental sustainability
Water quality monitoring

Pollution control and management
Wildlife protection
Smart healthcare
Embedded and connected health
Public welfare and criminal justice
Criminal activity profiling
Social welfare
Crowdsourcing and human computation
Cyber-physical systems and society
