

# CALL FOR PAPERS

**ICAMMSE 2021**  
**Jun 14-15, 2021**  
**Montreal, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMMSE 2021 : International Conference on Advanced Materials, Mechanics and Structural Engineering is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Materials, Mechanics and Structural Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced Construction Materials  
Applied Mechanics  
Biological Material  
Biomechanics  
Building Materials  
Cellular Mechanics  
Ceramic Materials  
Chemical Materials  
Composite and smart Materials  
Concrete Materials  
Construction Materials and Structures  
Engineering and Innovative Materials  
Environmental Catalysis and  
Environmental Friendly Materials

Experimental Methods  
Fluid Dynamics  
Fracture  
Industrial Materials  
Information Technology for Materials  
Intelligent Structure Systems  
Light Metals for Transportation  
Materials Manufacturing and Processing  
Materials Physics and Chemistry  
Materials Properties, Measuring Methods and Applications  
Materials Science and Engineering  
Mechanical Applications  
Mechanics, Materials Science and Engineering
