

# CALL FOR PAPERS

**ICAMSN 2021**  
**Jun 14-15, 2021**  
**Montreal, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMSN 2021 : International Conference on Advanced Materials Science and Nanotechnology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Materials Science and Nanotechnology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Materials science and engineering  
Materials process engineering  
Emerging areas of materials science  
Renewable material and energy  
Biomaterials and healthcare  
Materials processing and genomic engineering

Advanced nanomaterials  
Nanotech for energy and environment  
Nanotech in life sciences and medicine  
Materials chemistry  
Nanofabrication, nanometrology and applications  
Nanoengineering and its applications
