

CALL FOR PAPERS

ICATMA 2021
Jun 14-15, 2021
Montreal, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICATMA 2021 : International Conference on Acoustic Transduction Materials and their Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Acoustic Transduction Materials and their Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Acoustic transduction materials
Transducer materials
Cymbal transducers
Acoustic intensity probes
Film transducers
PMN Tonpilz transducers
Integrated mechanical amplifiers

Frequency-agile flexural
transducers
Mine identification SONAR
UUV acoustic modem
Vector sensor towed arrays
Echocardiography, medical
ultra-sound
4D real-time volumetric harmonic
imaging
