

CALL FOR PAPERS

ICCTBS 2021
Jun 14-15, 2021
Montreal, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCTBS 2021 : International Conference on Cybernetic Technology and Biological Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cybernetic Technology and Biological Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cybernetic technology
Cybernetics
Intelligent systems and robotics
Innovative designs
Advanced controls
Enhanced perception and cybernetics
Robust manipulation
Fuzzy systems
Neural networks
Genetic algorithms
Evolutionary computation
Image processing
Computer vision

Systems modeling and control
Smart sensor networks
Cyber-physical systems
Regulation in biological systems
The Marconian machine
Regulation and control
Transformation
Repeated change
The determinate machine
Coupling systems
Independence within a whole
The very large system
Stability
