

CALL FOR PAPERS

ICDGPCG 2021
Jun 14-15, 2021
Montreal, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDGPCG 2021 : International Conference on Digital Geometry Processing and Computer Graphics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Digital Geometry Processing and Computer Graphics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Digital geometry
Digital geometry algorithms
Digital geometry processing
Discrete sets
Digitized models or images of objects
Digital geometry in image processing
Computer graphics and image analysis

Geometric methods for digital picture analysis
Precision and efficiency
Discrete geometry
Digital topology
Digitization
Digital straight line segments
Discrete optimization
