

CALL FOR PAPERS

ICFDMME 2021
Jun 14-15, 2021
Montreal, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFDMME 2021 : International Conference on Fourth Dimensional Materials and Materials Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fourth Dimensional Materials and Materials Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Fourth dimensional materials and systems
Gel materials
Flexible and printed electronics
Material processing
Electrochemical materials and devices for energy conversion and storage
Polymer gels and network materials

Electrochemical materials and devices for energy conversion and storage
Smart engineering materials
Soft-smart robotics
Material processing
Theoretical and experimental approach
Printed and flexible electronics
