

CALL FOR PAPERS

ICHRCO 2021
Jun 14-15, 2021
Montreal, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHRCO 2021 : International Conference on Healthcare Robotics, Challenges and Opportunities is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Healthcare Robotics, Challenges and Opportunities. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Medical and healthcare robotics
Healthcare robotics
Robotics in healthcare
Diagnosis and therapy
Rehabilitation
Assistance
Medical robots
Diagnostic robots
Disability robots
Rehabilitation robots
Surgical robots
Therapeutic robots
Biorobots

Telepresence robots
Pharmacy automation
Disinfection robots
Use of robotics in healthcare
Robot-assisted surgery
Biorobotics in fiction
Practical experimentation
Advantages of robotics in healthcare
Applications of robotics in healthcare
Limitations of robotics in healthcare
Robotics for biological and medical applications
Robotic nurse
Artificial intelligence
