

CALL FOR PAPERS

ICRTST 2021
Jun 14-15, 2021
Montreal, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRTST 2021 : International Conference on Robotic Tactile Sensing Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Robotic Tactile Sensing Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Robotic tactile sensing
Touch sensing
Human tactile sensing
Tactile sensing for robotic applications
Robot tactile sensing technology
Advanced tactile sensing for robotics
System issues, requirements and expectations

Tactile sensing technologies
Integrated tactile sensing on silicon
Tactile sensors
Pressure sensor arrays
Biologically inspired tactile sensors
Capacitive tactile sensors in robotics
