

CALL FOR PAPERS

ICAMSP 2021
Jun 03-04, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMSP 2021 : International Conference on Applied Mathematics and Symbolic Programming is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Applied Mathematics and Symbolic Programming. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Pure Mathematics
Cross-Fertilization in Core
Mathematics
Statistics and Probability
Mathematics Of Signal Processing
Interactions Between Mathematics
and Theoretical High-Energy
Physics
Theoretical Physics
Applied Mathematics
Algebraic Structures
Matrix Theory
Differential Geometry of Curves and
Surfaces
Linear Statistics Modeling and
Regression
Kinetic Theory
Applied Harmonic Analysis

Differential Calculus
Integral Calculus
Probability and Statistics
Partial Differential Equations and
Fourier Analysis
Discrete Mathematics
Projects in Applied Mathematics
Matrices and Linear
Transformations
Symbolic Programming Methods
Multivariate Analysis
Models and Methods for
Optimization
Integration and Approximation
Introduction to Mathematical
Software
Concepts of Mathematics
