

CALL FOR PAPERS

ICAPMMA 2021
Jun 03-04, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAPMMA 2021 : International Conference on Advanced Polymerization, Mechanisms, Methods and Applications is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Polymerization, Mechanisms, Methods and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Polymer synthesis and polymerization
Structure and properties of single polymer chain
Synthesis of addition polymers
Template polymerization
Controlled polymerization
Stimuli responsive polymer surfaces synthesis
Statistical analysis of polymers
Recent advances in polymer synthesis
Recent advances in polymer chemistry
Characterization of polymers
Synthetic polymers
Macromolecular polymeric structure

Functional polymers
Polymers for catalysis and energy applications
Bio catalysis in polymer chemistry
Bio-related medical polymers
Polymers in biochemistry
Polymers for separation
Polymer technology
Marketing of polymers
Biochemical degradation of polymers
Polymer therapeutics: concepts and applications
Polymer nanotechnology
Solid waste management of polymers
