

CALL FOR PAPERS

ICASDPP 2021
Jun 03-04, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASDPP 2021 : International Conference on Agile Software Development, Patterns and Practices is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agile Software Development, Patterns and Practices. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agile software development	Evolutions of agile software
Agile software development methods	Iterative, incremental and evolutionary
Agile software development processes	Efficient and face-to-face communication
Agile software development methodologies	Very short feedback loop and adaptation cycle
The manifesto for agile software development	Quality focus
Limitations of agile software processes	Adaptive vs. predictive
Application life cycle management	Iterative vs. waterfall
Agile software development life cycle	Code vs. documentation
Agile software development approaches	Agile methods
Agile software testing	Agile practices
Agile software development for component based software	Method tailoring
Patterns and practices	Comparison with other methods
Agile principles	Large-scale, offshore and distributed
