

CALL FOR PAPERS

ICEISE 2021 Jun 03-04, 2021 New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEISE 2021: International Conference on Ecological Informatics and Systems Ecology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ecological Informatics and Systems Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ecological informatics Ecoinformatics Applications of ecological informatics Ecological informatics for environmental sustainability Ecoinformatics for managing natural terrestrial and agro-ecosystems Ecoinformatics for managing river, lake, coastal and marine ecosystems Ecoinformatics for managing urban ecosystems Ecoinformatics for integrated pest management Network modelling and ecological informatics theory Ecological monitoring and data management Data assimilation and sharing Bioindication **Ecological acoustics**

Automatic ecosystem surveillance Operational models for real-time forecasting Spatio-temporal computation Ecosystem simulation and forecasting Integration of numerical and computational techniques Bio-inspired and probabilistic computation Evolutionary computation and multiobjective optimization Applications of cellular automata, fuzzy logic and adaptive agents Artificial neural networks and SOM Immunoinformatics and biological invasion Bayesian inference and probability GIS and remote sensing Ecological monitoring at local, regional and global scale
