

CALL FOR PAPERS

ICFGFE 2021
Jun 03-04, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFGFE 2021 : International Conference on Forensic Geotechnical and Foundation Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Forensic Geotechnical and Foundation Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Forensic Geotechnical Engineering
Theory and Practice
Forensic Investigation and
Litigation Process
Geotechnical Engineering and
Forensics
Expansive Soils
Collapsible Soils
Settlement of Shallow and Deep
Compacted Fill Soils
Moisture Intrusion below Slabs
Soil Corrosion
Sulfate Exposure
Site Runoff and Drainage
Roadway and Parking Area Pavement
Failures
Slope Stability Failures

Foundation Failures
Excavation Failures
Site Quantity Analysis
Differing Site Condition Disputes
Underground Pipeline Failures
Forensic Geotechnical Engineering
Studies of Detection and
Mitigation
Subsurface Exploration and
Geotechnical Investigations
Test Borings, Test Pits, and Hand
Augers
Cone Penetration Testing
Dilatometer and Pressuremeter
Testing
Geophysical Exploration
Foundation and Slabs
