

CALL FOR PAPERS

ICNACT 2021
Jun 03-04, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNACT 2021 : International Conference on Network Architecture and Communication Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Network Architecture and Communication Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Network architecture
- Communication network architecture
- Design principles
- Network architecture trends
- Network architecture evolution
- Message switching architecture
- Network topologies
- Network components
- Network types and communication technologies
- Personal area networks
- Local area networks
- Metropolitan area networks
- Wide area networks

- The internet
- Security
- Circuit switching
- Applications
- OSI network model
- Physical layer
- Data-linking layer
- Network layer
- Transport layer
- Session layer
- Presentation layer
- Application layer
- Distributed computing
