

CALL FOR PAPERS

ICNMGS 2021
Jun 03-04, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNMGS 2021 : International Conference on Nutritional Management of Gastrointestinal Disease is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nutritional Management of Gastrointestinal Disease. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nutritional management of gastrointestinal disease
Malnutrition in gastrointestinal disorders: detection and nutritional assessment
Enteral access and associated complications
Parenteral nutrition
Nutritional therapy in adult short bowel syndrome patients with chronic intestinal failure
Nutritional aspects of acute pancreatitis
Nutritional therapy in chronic pancreatitis
The role of diet in the treatment of irritable bowel syndrome

Nutritional consideration in celiac disease and nonceliac gluten sensitivity
Nutritional interventions in the patient with inflammatory bowel disease
The role of prebiotics and probiotics in gastrointestinal disease
Small intestinal bacterial overgrowth: nutritional implications, diagnosis, and management
Nutritional interventions in chronic intestinal pseudo obstruction
The need to reassess dietary fiber requirements in healthy and critically ill patients
Nutritional therapy in gastrointestinal cancers
Nutritional considerations in liver disease
