

# CALL FOR PAPERS

**ICNSENS 2021**  
**Jun 03-04, 2021**  
**New York, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNSENS 2021 : International Conference on Neural Systems Engineering, Networks and Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Neural Systems Engineering, Networks and Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Neural systems engineering	Cell and molecular neuroscience
Neural systems and rehabilitation engineering	Neuroimaging
Systems neuroscience and neuroengineering	Brain-computer and brain-machine interfaces
Neural systems and computation	Neural computation and modeling
Neural computation	Neuro-nanotechnology
Engineering neural systems	Neural prostheses
Computational neuroscience	Neuro-robotics
Neurology	Cognitive engineering and science
Neurosurgery	Deep brain stimulation
Electrical engineering	Rehabilitation engineering
Materials engineering
