

# CALL FOR PAPERS

**ICSDP 2021**  
**Jun 03-04, 2021**  
**New York, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSDP 2021 : International Conference on Seismic Data and Processing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Seismic Data and Processing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Seismic data processing  
Seismic data processing and engineering applications  
Advances in seismic data processing  
Recent innovations in seismic data processing  
Seismic data acquisition, processing, and interpretation  
Analysis of seismic data  
Seismic resolution and fidelity  
Digital filters

Seismic velocity analysis  
Interpretation of seismic data  
Interpretation algorithms and systems  
Seismic data quality requirements  
Technological advances in seismic acquisition  
Seismic surveying  
2D and 3D seismic reflection data processing
