

CALL FOR PAPERS

ICSUIN 2021
Jun 03-04, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSUIN 2021 : International Conference on Smart Urban Infrastructure Networks is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Smart Urban Infrastructure Networks. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Smart urban infrastructures	Infrastructure planning
Smart infrastructure systems	Infrastructure management systems
Principles of smart infrastructure	Infrastructure financing
Application of smart infrastructure systems	Co-operative governance and collaboration
Artificial intelligence technologies for smart infrastructure systems	Policy development
Intelligent infrastructure systems	Setting norms and standards
Intelligent infrastructure solutions	Monitoring and regulation
Environmental implications	Service delivery life cycle
Intelligent infrastructure networks	Municipal infrastructure design standards
Intelligent infrastructure management	Infrastructure asset management
Urban infrastructure systems	Municipal infrastructure asset management systems
Policy drivers of intelligent infrastructure	Municipal infrastructure financing
International and domestic trends	Road reconstruction
