

# CALL FOR PAPERS

**ICTEEME 2021**  
**Jun 03-04, 2021**  
**New York, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTEEME 2021 : International Conference on Trends in Electronics, Electrical and Mechanical Engineering is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Trends in Electronics, Electrical and Mechanical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electrical and electronics  
Instrumentation  
Electric power generation  
Electronic materials  
Electromagnetic transients  
programs  
Digital signal processing  
Microprocessor based technologies  
Digital communication  
Digital security  
Magnetic theory  
Micro machines  
Economic aspects of power quality  
and cost of supply  
Sensibility of loads and other  
electrical equipment to power  
quality characteristics

Influences of disturbing loads on  
supply networks and other  
electrical devices  
Electrical and exploitative  
characteristics of loads and  
electrical power converters  
Reliability and continuity of  
supply.  
Power quality in grids with  
distributed generation and  
renewable energies  
Harmonics  
Energy efficiency in industry  
Education and power quality  
Electrical materials and process  
Semiconductor technology  
High voltage engineering and  
insulation technology  
Electronic materials  
Education and training for  
electrical engineers  
Power system planning and  
scheduling
