

# CALL FOR PAPERS

**ICTSC 2021**  
**Jun 03-04, 2021**  
**New York, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTSC 2021 : International Conference on Trends in Services Computing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Trends in Services Computing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Foundations of Services Computing	Services Repository and Registry
Services Science	Formal Methods for SOA
Service Modeling and Implementation	Service Discovery
Service Delivery, Deployment and Maintenance Service	Services Engineering Practices and Case Studies
Value Chains and Innovation Lifecycle	Services-Centric Business Models
Service-Oriented Architecture (SOA)	Business Service Analysis, Strategy, Design, Development and Deployment
Industry Standards and Solution Stacks	Service-Oriented Business Consulting Methodology and Utilities
Service-based Grid/Cloud/Autonomic Computing	Intra- or Inter- Enterprise for Business-to-Business Service Control
Mobile Services Computing	Service Revenue Models and Utility Computing, e.g.,
Services Computing in Mobile Ad-hoc NETWORKS (MANETs)	Fee-for-Transaction and Fee-for-Service
Service Level Agreements (SLAs) Negotiation, Automation and Orchestration	Service Strategic Alliance and Partners
Service Security, Privacy and Trust	Service Network Economic Structures and Effects
Quality of Services (QoS) and Cost of Services (CoS)	Ontology and Business Service Rules
Ontology and Semantic Web for Services Computing
