

CALL FOR PAPERS

ICWSNEA 2021
Jun 03-04, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWSNEA 2021 : International Conference on Wireless Sensor Networks and Engineering Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wireless Sensor Networks and Engineering Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wireless sensor networks	Air pollution monitoring
Characteristics and architectures	Forest fire detection
Power efficiency in wireless sensor networks	Landslide detection
Scalability in wireless sensor networks	Water quality monitoring
Wireless sensor networks responsiveness	Natural disaster prevention
Reliability in wireless sensor networks	Industrial monitoring
Mobility in wireless sensor networks	Machine health monitoring
Sensor nodes architecture	Data center monitoring
Operating systems	Data logging
Network software architecture	Water/waste water monitoring
Area monitoring	Structural health monitoring
Health care monitoring	Wine production
Environmental/earth sensing
