

CALL FOR PAPERS

ICAMMHMD 2021
Jun 24-25, 2021
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMMHMD 2021 : International Conference on Advanced Medical Microbiology and Human Microbial Diversity is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Medical Microbiology and Human Microbial Diversity. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced medical microbiology
Applications of advanced medical microbiology
Microbial diversity
Microbial physiology
Microscopic methods for assessing microbial diversity
Microbial metabolism
Microbial Ecology
Microbial Genetics
Microbial diversity and global environmental issues
Microbial immunology
The role of microbes in immune response
Host interactions and system biology
Innate and Adaptive Immunity

Immune system regulatory control
Fundamentals of medical microbiology
Causes and transmission of infectious diseases
Viruses and infections
Bacterial disease treatments
Mycology and its medical preventions
Parasitology and its treatments
Microbial theory of cancer
NTDs and STDs
Pathology and medical practices
Diagnostic microbiology
Applied microbiology in clinical research
Global market on vaccines and drugs
