

# CALL FOR PAPERS

**ICCCAM 2021**  
**Jun 17-18, 2021**  
**Riga, Latvia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCAM 2021 : International Conference on Cyclodextrin Chemistry and Cyclodextrins in Advanced Materials is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cyclodextrin Chemistry and Cyclodextrins in Advanced Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cyclodextrins in advanced materials  
Cyclodextrins based stimuli-responsive systems  
Green chemistry processes based on cyclodextrins  
Cyclodextrins based catalysts  
Syntheses of cyclodextrins derivatives and polymers  
Applications of cyclodextrins in food

Cyclodextrins-based hydrogels  
Cosmetic formulations  
Cyclodextrin for vectorization and/or controlled release of active substances  
Cyclodextrins involved in environmental depollution (air, soils, waste waters, sediments)  
Nano materials and nano-structured coatings containing cyclodextrins
