

CALL FOR PAPERS

ICTMA 2021
Jun 17-18, 2021
Riga, Latvia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTMA 2021 : International Conference on Wearable Technology for Medical Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wearable Technology for Medical Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Health wearables
Health wearable devices
Wearable technology in medicine and health care
Wearable technology for medical applications
Wearable systems for clinical and biomedical uses
Wearable sensor technology for health monitoring

Wearable sensor technology for rehabilitation
Wearable technology and preventative healthcare
Health wearables and health tracking
Wearable medical devices for tele-home healthcare
Clinical effectiveness of health wearables
Privacy, security and consumer protection
