

CALL FOR PAPERS

ICNTA 2021
Jun 03-04, 2021
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNTA 2021 : International Conference on Neuroimaging Technologies and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Neuroimaging Technologies and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Neuroimaging technologies
Neuroimaging for treatment and diagnosis
Neuroimaging for scientific research
Brain imaging techniques
Computed axial tomography
Diffuse optical imaging
Event-related optical signal
Magnetic resonance imaging

Functional magnetic resonance imaging
Magnetoencephalography
Positron emission tomography
Single-photon emission computed tomography
Cranial ultrasound
Comparison of imaging types
Criticism and cautions
