

CALL FOR PAPERS

ICCASSED 2021
Jun 07-08, 2021
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCASSED 2021 : International Conference on Computer-Aided Structural Engineering and Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer-Aided Structural Engineering and Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer-aided structural engineering	Concrete engineering and advanced concrete technology
Computerized structural design	Structural dynamics and analysis
Software application for design of structures	Numerical methods in structural mechanics
Computerized method for structural design	Geotechnical and earthquake engineering
Computerized structural design and analysis	Finite element method
Computerized methods and tools	Foundation engineering
Computer programming	Soil dynamics and rock mechanics
Mechanics of materials
