

CALL FOR PAPERS

ICEPPT 2021
Jun 07-08, 2021
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEPPT 2021 : International Conference on Engineering Polymers and Polymer Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Engineering Polymers and Polymer Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Engineering polymers
Polymer science and engineering
General scope of polymer technologies
Developments of polymer engineering
Polymer synthesis and polymerization
Recent advances in polymer chemistry
Characterization of polymers
Synthetic polymers
Macromolecular polymeric structure
Functional polymers
Polymers for catalysis and energy applications
Bio catalysis in polymer chemistry
Bio-related medical polymers

Polymers in biochemistry
Polymers for separation
Dynamics of polymer melts and glasses
Theory and simulation of polymer liquids
Applications of polymer engineering
Models: ideal chains and real chains
Dynamic heterogeneity in mixtures and glasses
Dynamics of block copolymers
Solvent and temperature effect
Excluded volume interaction
Crystallization and self-assembly
Interfacial, surface and nanoconfinement effects
Biomacromolecular physics
