

# CALL FOR PAPERS

**ICWHFM 2021**  
**Jun 07-08, 2021**  
**San Francisco, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWHFM 2021 : International Conference on Wildlife Habitat and Forest Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wildlife Habitat and Forest Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Habitat management  
Preservation and restoration  
Wildlife and habitat management  
Habitat conservation  
Wildlife-habitat relationship  
Wildlife habitat  
Habitat type and by habitat  
quality

Forest stewardship: wildlife  
Woodlands and wildlife  
Management practices for enhancing  
wildlife habitat  
Seasonal habitats for wildlife  
Forest finance  
Farmlands and wildlife
