

CALL FOR PAPERS

ICAPES 2021
Jun 10-11, 2021
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAPES 2021 : International Conference on Aerospace, Propulsion and Energy Sciences is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aerospace, Propulsion and Energy Sciences. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Theories, Models and Concepts	Lunar In Space Resource
Advanced Energy Sources	Utilization
Advanced Heat Pipe Technologies	Lunar Lander Technologies and
Advanced In-Space Propulsion &	Design
Power Concepts	Medical Astrosociology
Advanced Thermal Control	Microgravity Thermophysics
Technologies	New Directions in
Advances in Space Propulsion	Astrophysics/Particle Physics
Enabling Technologies for Lunar	New Directions in Communications
Surface Science	Planetary Defense and Societal
Far Term Space Transport and	Protection
Environment Models and Theories	Propulsion Analysis
High Capacity Heat Rejection	Sensors
Systems	Smart Materials
High Frequency Gravity Wave	Space faring societies
Detection	Space policy and space law in a
High Frequency Gravity Wave	social context
Generators	Space Science and Technology
Innovative Techniques in Fusion	Roadmaps
Energy	
Innovative Techniques in Nuclear	
Energy
