

CALL FOR PAPERS

ICWGWPM 2021
Jun 21-22, 2021
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWGWPM 2021 : International Conference on Wind-Generated Waves and Physical Mechanisms is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wind-Generated Waves and Physical Mechanisms. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wind-generated waves
Wave generation
Typical periods of wind-generated waves
Theories of wave growth
Experiments and observations
Numerical modeling of the wind input
Physical mechanisms of wave evolution

Ocean wave characteristics
Ocean wave measurement
Wave prediction
Operational forecasting of wind-generated waves
Directional spectra of wind-generated waves
Energy dissipation of wind-generated waves
