

# CALL FOR PAPERS

**ICMEPEE 2021**  
**Jun 21-22, 2021**  
**Vienna, Austria**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMEPEE 2021 : International Conference on Molecular Exercise Physiology and Endurance Exercises is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Molecular Exercise Physiology and Endurance Exercises. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Molecular exercise physiology  
Sport and exercise genetics  
Signal transduction and adaptation  
to exercise  
Molecular adaptation to endurance  
exercise  
Molecular biology of muscle  
adaptation  
Molecular regulation of adaptation  
to exercise

Molecular mechanisms of exercise  
Skeletal muscle fibre plasticity  
Genetics and endurance sports  
Molecular sport nutrition  
Molecular exercise immunology  
Acute responses and chronic  
adaptations
