

CALL FOR PAPERS

ICOET 2021
Jun 21-22, 2021
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOET 2021 : International Conference on Ocean Energy Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ocean Energy Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ocean energy	Wave energy conversion systems
Ocean renewable energy	Tidal energy and power
The ecology of ocean energy	Tidal power plants
Ocean energy technologies for renewable energy generation	Tidal power generation systems and technologies
Ocean thermal energy conversion	Modern technology
Resource and characteristics of ocean energy	Ocean power technologies
Technology development and implementation	Wave energy and power
Ocean energy technologies and development trends	Wave farms
Tidal stream conversion systems	Wave power conversion
