

CALL FOR PAPERS

ICSVUST 2021
Jul 29-30, 2021
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSVUST 2021 : International Conference on Sustainable Vertical Urbanism and Structure Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Vertical Urbanism and Structure Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Innovative building designs and
skyscrapers
Advanced structural technologies
for high-rise buildings and new
building methods
Featured design researches
Sustainable vertical urbanism
Building services and achieving
sustainable vertical urbanization
Supertall building design
Seismic action reduction in
high-rise structure

Designing high-rise housing
Thermal breaks and energy
performance in high-rise
structures
Using fluid dynamics to optimize
high-rise structure design
New skins for skyscrapers
Aerodynamic performance of tall
buildings
Development of innovative
structures
