

CALL FOR PAPERS

ICEEAE 2021 Jul 22-23, 2021 Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEAE 2021: International Conference on Environmental Engineering and Acoustical Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Engineering and Acoustical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Civil and environmental systems Analysis of semi-rigid connections Applied computer vision for civil and environmental systems Augmented and virtual reality Buckling and stability Building design, construction, and operation Civil systems, management and surveying Computer controlled site instrumentation Conceptual design support Construction automation and robotics Construction systems and management Dam systems Disaster preparedness, response and recovery

Distributed computing in systems
Dynamics and earthquake systems
Energy for building
Environment and energy
Environmental modeling
Environmental systems
Environmental protection
Formfinding, topology and
structural morphology
Foundation systems
Fracture mechanics
Geographical information systems
Geotechnical analysis and design
Ground vibration
