

CALL FOR PAPERS

ICBMMA 2021
Jul 15-16, 2021
Stockholm, Sweden

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBMMA 2021 : International Conference on Bioinformatics Models, Methods and Algorithms is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioinformatics Models, Methods and Algorithms. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bioinformatics Models, Methods and Algorithms
Genomics and Proteomics
Sequence Analysis
Structural Bioinformatics
Image Analysis
Visualization
Databases and Data Management
Data Mining and Machine Learning
Biostatistics and Stochastic Models
Computational Molecular Systems
Pharmaceutical Applications
Systems Biology

Computational Intelligence
Simulation
Algorithms and Software Tools
Web Services in Bioinformatics
Immuno- and Chemo-informatics
Pattern Recognition, Clustering and Classification
Structure Prediction
Model Design and Evaluation
Transcriptomics
Next Generation Sequencing
Structural Variations
