

CALL FOR PAPERS

ICET 2021
Jul 15-16, 2021
Stockholm, Sweden

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICET 2021 : International Conference on Electronics for Transportation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electronics for Transportation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Transportation electronics
Control electronics for vehicle engineering
Safe electronics in transportation systems
Transportation electronics systems and software
Automotive power electronics and motor drives
Electronics for railway and ground transportation
Design of electronic control unit for automobiles
Power electronics for new automotive energy technologies
Hybrid and electric vehicle battery testing
Power electronics for renewable energy systems transportation

Computers in transportation and computer electronics
Electrical and electronics testing for transportation electronics
Electromagnetic compatibility testing
Engine control electronics
Car seat cooling and heating
Steering wheel cooling and heating
Power electronics cooling
Traffic signaling systems
Intelligent parking
