

CALL FOR PAPERS

ICHEHPS 2021
Jul 15-16, 2021
Bali, Indonesia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHEHPS 2021 : International Conference on Healthcare Engineering, Healthcare Products and Systems is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Healthcare Engineering, Healthcare Products and Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Healthcare engineering
Health engineering
Hospital medical technology
management
Hospital and healthcare security
Healthcare systems optimization
Healthcare delivery, measurement
and modeling
Statistical and quantitative
models
Healthcare systems
Healthcare delivery systems
Healthcare systems modeling
Medical information
Healthcare industry
Health information systems

Production and health care system
Health care management operations
Assessment of medical technologies
Patient-centered systems
Roles in healthcare products,
systems and delivery
Engineering design and product
development
Regulatory science
Risk science and failure analysis
Economic analysis,
reimbursement/payment models, and
value engineering
Information technology and
software
Public policy and management
science
Other applications: beyond
healthcare-oriented areas
General consumer product safety
