

# CALL FOR PAPERS

**ICAPSS 2021**  
**Jul 22-23, 2021**  
**Berlin, Germany**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAPSS 2021 : International Conference on Acoustic Phonetics and Speech Sounds is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Acoustic Phonetics and Speech Sounds. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- |   |                                       |
|---|---------------------------------------|
| Acoustic phonetics                                    | Speech perception                     |
| Acoustic aspects of speech sounds                     | Speech prosody                        |
| Acoustic and auditory phonetics                       | Sound change                          |
| Psycholinguistics and acoustic phonetics              | Phonology                             |
| Source-filter theory of speech production             | Sociophonetics                        |
| Vocal-tract cavity properties and formant frequencies | Language typology                     |
| Adaptive design of speech sound inventories           | First and second language acquisition |
| Acoustic phonetics                                    | Forensic phonetics                    |
| Acoustic phonetic sciences                            | Speaking styles                       |
| Acoustic phonetics teaching and learning              | Voice quality                         |
| Speech production                                     | Clinical phonetics                    |
| Speech acoustics                                      | Speech technology                     |
