

# CALL FOR PAPERS

**ICNNM 2021**  
**Jul 26-27, 2021**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNNM 2021 : International Conference on Nanoglasses and Nanocrystalline Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanoglasses and Nanocrystalline Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

## Nanoglasses

Commercial and experimental nanoglasses  
General-purpose nanoglasses  
High strength nanoglasses  
Nanoglass chemical compositions  
Nanoglass manufacturing and production  
Recycling and reuse of nanoglasses  
Nanoglass reinforcement  
Nanoglasses for engineering applications  
Atomic structure and structural stability of nanoglasses

Structural modeling of nanoglasses  
Nanoglass properties  
Physical properties of nanoglasses  
Chemical resistance of nanoglasses  
Electrical properties of nanoglasses  
Thermal properties of nanoglasses  
Optical properties of nanoglasses  
Radiation properties of nanoglasses  
Mechanical properties of nanoglasses
